

Excerpt from Journal

7 August 1958

Met briefly with Carl Marcy of the Senate Foreign Relations Committee staff to discuss the August 5 letter from Senator McClellan to Senator Green. Marcy had not yet received the letter but after discussing the matter he indicated that if we could furnish him with an appropriate memorandum the matter could be taken up at the executive meeting of the Committee on 12 August 1958.

Met with Walter Reynolds, Chief Clerk, Senate Committee on Government Operations. Received from Reynolds copies of Senator McClellan's letter to GSA and also the joint letters to Senator Russell and Senator Green. These matters deal with the proposed transfer of surplus radio transmitters to AMCOMLIB. Under the wording of the law, the adjourning of Congress should in no way procedurally impair the Senate Committee on Government Operations in indicating approval to GSA once the other conditions are met.
